

# SAFE Rehoming 2025 Annual Report

# About SAFE Rehoming

For 8 years SAFE has been striving to fill the gap left by the closure of the largest animal shelter in Northern Sydney. At SAFE we aim to rescue the pets who need the help and give them the chance to live a happy life.

We face challenges on a daily basis, both big and small. But the pets we save and the loving home we find for them makes it all worthwhile.

*Every animal deserves to live a happy life*

# President's Report

SAFE is poised to face some of the biggest challenges of its short existence. It's only with you - our supporters - that we can carry on.

Over the course of 2025, SAFE has continued to do what we do best - rescue pets and ensure they are given the chance to live a happy life. Some of the decisions we have to make are difficult, and some of the outcomes we see are not what we want. But knowing that **398 pets** were given another chance this year makes it all worthwhile.

We are passionate about saving pets. But we can't do it without the support of the SAFE community. Whether you volunteer your time, adopt a pet, donate some money or goods, foster cats or kittens, or maybe help with all of these things - SAFE wouldn't be able to continue this **important work** without you.

As we move forward into an uncertain future, myself and the committee know that it's vital that we are supported by those of you who believe in our mission. Year on year you have donated more and more funds than ever, the annual theatre fundraising event was sold out, and as a community you have stood up to be counted. On a more personal note, when I needed help because my car broke down, you were there. You were **amazingly generous** and gave money so I could continue my work at SAFE.

I cannot express how much I appreciate every single person who has contributed in any way.

The next 12 months will bring another set of challenges, but I look forward to helping as many pets as we can - with your help of course!
