

SAFE Rehoming 2026 Annual Report

About SAFE Rehoming

For 9 years SAFE has been rescuing, rehabilitating and rehoming pets in need. The majority of these were cats. Unfortunately we were only able to help a handful of dogs due to the lack of suitable premises.

We are now an integral part of cat rescue in Sydney, with a reputation for caring for each and every individual animal for as long as it takes.

Every animal deserves to live a happy life

President's Report

Although the tough times made us feel like walking away sometimes, all we have to do is remember the number of lives we've changed, and that spurs us on.

Much of the committee's time this year was spent trying to find a property that satisfied our current and future needs. Having identified what we felt were properties with potential, we then had to overcome hurdles which needed to be investigated before we progressed each time. Negotiating an outcome with one serious contender, took the best part of 3 months before the deal ultimately collapsed and we had to pick ourselves up and start again from scratch. Fortunately we came across the Taronga Place property which had only just been advertised and from the first viewing we felt it was the place for us. Then our energy had to be channelled into cleaning Roseville, prepping Mona Vale and organising the actual move.

We started moving items over in April 2026 and cats and housing during May. With the support and help of many volunteers doing multiple trips back and forth, we managed to start operations in mid-May.

This has been one of the biggest and most consuming challenges in SAFE's history, but we ended the year on a very positive note, in new premises which have great potential for the future.

Thank you to all who donated time or money to help facilitate the move.

Despite going through the enormous and constant undertaking of finding and moving to new premises, we still celebrated every adoption, particularly of those cats who had been with us for a while. These 'long termers' included, Luna (1587 days), Aslan (1187 days), Bissie (1156 days), Calli (1136 days), Chai (1064 days), Mickey (1024 days), Willow (1013 days), plus Virgo, Valentina, Prue and Trude, all over 800 days.
